

Get To Know Us

Brad Thompson

Linehaul Operations Manager

Brad has 15+ years of experience in the transport industry. Priding himself on service before all else, he understands the level of urgency required and treats every delivery with the same level of importance.

Carl Groth

Business Development Manager

Carl's experience in the industry has been built through roles in Operations, Account Management and Logistics Consulting. Carl's knowledge of the supply chain industry has him challenging the status quo to bring innovative solutions to the table.

James Latimer

Fleet Operations Manager

Equipped with 12+ years of industry experience, James' knowledge of the Melbourne Metro grid is like no other. Motivated by achieving the best results, he maintains great relationships with clients and drivers, ensuring a can-do attitude towards problem-solving.

Bulent Ulusoylu

Warehouse Operations Manager

From the family farm to manufacturing and warehousing in Melbourne, Bul's dedication and operational know-how has brought his expertise to the Kubic team. Bul has the ability to overcome complexity and achieve effective solutions for our clients.

About Us

Kubic Transport is a freight transport and logistics company based in Melbourne that provides personalised freight management solutions, to businesses of all sizes and needs. Our team is made of professionals that bring together operational expertise from the transport, warehousing and manufacturing world into one shop, giving us collective knowledge on every stage of the supply chain process.

We Make Things Happen

We take the frustration out of freight!

While our competitors may leave you out of the loop and unsure, we pride ourselves on being responsive, taking the initiative to ensure our clients' experience is seamless and stress-free. With Kubic, you'll always know where your delivery is, what time to expect it and how to prepare for an efficient pick-up or drop-off.

We are a solutions-focused team that love what we do and feel good about solving the tricky logistics and transport scenarios that our customers have.

Services

Kubic Transport is a multi-faceted company, we understand that there isn't a one size fits all process when it comes to logistics and that's why we tailor our services to your specific needs and operational goals.

To offer each client customised services, we'll take the extra time to understand which services are best suited to your situation and budget. We provide bulk freight management and road transport services, interstate linehaul and warehousing services of general and/or specialised freight.

- Local Transport
- Interstate Transport
- 3PL Warehousing

We know things don't always go to plan, that's why we pride ourselves on being flexible. We strive to go above and beyond for our customers. If you have unusual freight management requests, we can help!

Logistics You Can Trust

Kubic Transport works with you, pinpointing your transport needs to implement personalised freight management solutions. We believe in honest, straightforward service with no fluff! Focusing only on the things that matter and impact your business.

We know you already have enough to worry about! If a problem arises we'll come to you with a solution, not an excuse. This means you'll spend less time chasing up deliveries and more time focusing on the success of your business.

If you're after a logistics partner that puts your needs first every step of the way, we're the team for you!
